JUSTIFICATION:

In November 2005 the Alaska Board of Game adopted a season date change for the winter moose season in southern Unit 22A which shifts the winter season from the month of December to the month of January. The Board authorized the Department to make the change effective during the 2005-2006 regulatory year, as requested by the villages of Saint Michael and Stebbins. Therefore, this emergency order closes the December resident moose

season for antlered bulls and establishes a Jan. 1-Jan. 31 resident season for antlered bulls in southern Unit 22A.
